

Electoral programme / slogan: “consciously” or “for a town with awareness”

TRANSPARENCY, a town of the 21st century.

Total transparency in the public sector is necessary for the normal development of democracy. To achieve this, there are different communication channels.

Publishing all the economic and financial information of the City Council.

Creating a municipal web to access all the information of the local authority.

Exposing publically the personal patrimony of each elected member, at the beginning and at the end of the term, and their detailed remuneration.

Publishing all the subsidies that the Town Council may apply for.

Changing the hours of the plenary sessions.

Editing a quarterly newsletter.

Informing about all the municipal projects and explaining in which stage of the process they are.

Transparent job listings available for all and offers advertised within a sufficient time limit.

Informing citizens about the waste treatment cycle.

Providing information about the agreements reached by the City Council and the water, electricity and waste management companies.

ECONOMIC REACTIVATION, the link to unite us.

Reducing taxes and municipal charges.

Supporting industry and entrepreneurs with flexible taxation.

Adapting and maintaining the industrial states.

Opening the town to the outside: planning and diffusing advertising campaigns, taking part in regional, provincial, national and international trade fairs and events.

Promoting and supporting entrepreneurs' projects.

“IBI” tax exemption for companies recently implemented.

Managing aid and subsidies actively and continually.

Improving the accesses which connect with other towns or communication roads.

PUBLIC TRANSPORT, for the economic reactivation.

Creating the Pego-Hospital –Denia bus line with a stop in Monte Pego.

Improving the connections between Pego and the region by means of public transport.

Bus line linking Pego and the Beach regularly during the Summer months.

TOWN PLANNING. The town that we want.

After what we have lived in our town we must rethink about where we want to go, we know that Pego has a great potential and we cannot afford any more mistakes.

We want a welcoming practical and modern town, which is respectful with the environment and that improves the quality of life of the people.

Promoting a sustainable urbanism by reducing the cost of the building licenses.

Applying the criteria of accessibility and energetic efficiency to all the municipal facilities, premises and infrastructures.

Achieving a town without architectural barriers.

Passing a municipal ordinance on the aesthetics of the buildings,

Converting part of the ‘Calle Mayor’ into a pedestrian area.

Improving the rainwater drainage in the hot spots.

Improving the appearance of our streets.

Consulting and listening to the proposals of the Association of Constructors associated to Pego.

Promoting to the exterior the offer of the land for development

RESIDENTIAL ESTATES (URBANIZATIONS)

Creating a Local Mountains Department

We will work to improve the road access to Monte Pego.

To solve in the most effective way the problems of the neighbours of Monte Pego, it is necessary to fix a plan and go step by step in order to solve their problems.
